OMNI CONSULTANCY LLC — Company Profile

Headquarters: 2567 Harris St. Eugene, Oregon, 97405 USA
Leadership: Susanna Meyer (President & CEO) | Okito Paluku (Vice-President)
Business: International trading of Gold, Copper, Lithium, Cobalt, Coltan (Tantalite)
Supply Chain Focus: Africa → USA/Canada/Europe

About Us

OMNI CONSULTANCY LLC is an international mineral trading company incorporated in Eugene, Oregon, USA. We procure certified minerals from reputable producers and licensed exporters across Africa and resell to vetted buyers in the United States, Canada, and Europe. Our approach combines rigorous compliance, reliable logistics, and transparent pricing to deliver consistent value to both suppliers and buyers.

Mission

To build a trusted bridge between African mineral producers and global industrial and investment markets, while upholding the highest standards of legality, ethics, safety, and sustainability.

Core Values

- Integrity & Compliance: Full adherence to export laws, KYC/AML, and OECD Due Diligence Guidance for Responsible
- Transparency: Clear deal terms, traceable documentation, and on-record assays and certificates.
- Partnership: Long-term, mutually beneficial relationships with suppliers and buyers.
- Operational Excellence: Reliable timelines, professional logistics, and consistent quality control.
- Sustainability & Local Impact: Preference for responsible sourcing and community-positive operations.

Products & Specifications

Mineral	Forms	Typical Purity/Specs	Use Cases
Gold (Au)	Doré bars, refined bullion	Assayed per shipment	Investment, jewelry, industrial
Copper (Cu)	Cathodes, concentrates	LME-grade or as specified	Electrical, construction, manufacturing
Lithium	Spodumene concentrate, salts	Per customer spec (e.g., % Li_2O)	Batteries, energy storage
Cobalt (Co)	Hydroxide, concentrates	Per customer spec	Batteries, superalloys
Coltan (Ta/Nb)	Concentrates	Ta_2O_5 % as specified	Electronics, aerospace

Sourcing & Compliance

We work with licensed African cooperatives, private mines, and authorized exporters. Each shipment is backed by permits, certificates of origin, assays, and chain-of-custody documentation. We conduct KYC on counterparties and screen against sanctions lists prior to engagement.

Logistics & Terms

Shipments follow international Incoterms (e.g., EXW, FOB, CIF, DAP) as agreed per deal. We coordinate secure transport, export clearance, and insurance up to the delivery point. Assay and inspection are arranged with reputable labs (e.g., at the point of export or import), and payment terms are tied to documentary compliance.

Quality Assurance

Quality is validated via independent assay/inspection reports. Non-conformities are handled under clearly defined remedies (replacement, price adjustment, or refund) per contract. We maintain records for full traceability of batches and documents.

Risk Management

Key risks—price volatility, regulatory changes, logistics delays—are mitigated through hedging options, multi-sourcing, insurance coverage, robust documentation, and conservative scheduling.

Target Buyers

Refineries, smelters, industrial manufacturers, bullion dealers, and institutional buyers in the USA, Canada, and Europe.

Competitive Advantages

- US-based compliance hub with global reach.
- Established relationships with licensed African suppliers.
- End-to-end documentation and logistics management.
- Vetted buyer network and transparent pricing structures.
- Flexible deal structures (spot and longer-term offtake).
